“Development and Climate Change:
A Strategic Framework for the World Bank Group”**

| Chapter 10 | |
|--|--------------------------------|
| Sheila Page, Senior Research Associate | Overseas Development Institute |
| Para 146: The header is how climate change can support development action, but the text asks which climate change actions support particular development goals: these are different approaches: which does the framework follow? Development first, and then identify climate change inputs? Or climate change actions first, then ask if there are development effects? | |
