

SDN Forum 2012

EXTRACTIVE INDUSTRY DAY

EXTRACTIVE INDUSTRY AND GREEN GROWTH FOR ALL

The SEGOM Program for the SDN Forum has three broad objectives. Firstly, to position the role of extractive industries (EI) in *Green Growth for All*. Secondly, to transfer expertise on the key knowledge gaps related to EI across SDN and the Bank. And thirdly, to train SEGOM and other Bank staff on EI operations.

SEGOM Sector Day – Friday February 24

Morning – High level topics

1. Is there a resource curse? Or has it been lifted? Panel discussion.
2. Is this the Golden Age of Gas?

Afternoon – Focused Learning

The topics are based upon key EI knowledge gaps plus parallel sessions on unconventional gas to meet the demands of energy staff.
