Notes

* North African countries

2010 data is in white

* Data for 2005 and 2010 refer to the former country of Sudan before the independence of South Sudan in July 2011.

Mobile-cellular telephone subscriptions refers to the number of subscriptions to a public mobile-telephone service.

Mobile-cellular prepaid tariff refers to the price of a standard basket of mobile monthly usage for 30 outgoing calls per month (on-net, off-net, to a fixed line and for peak and off-peak times) in predetermined ratios, plus 100 SMS messages. It is based on the 2009 methodology of the OECD low-user basket.

Fixed broadband subscriptions refers to subscriptions to high-speed access to the public Internet (a TCP/IP connection), at downstream speeds equal to, or greater than, 256 kbit/s.

Mobile broadband subscriptions are the sum of the number of subscriptions using the following technologies: CDMA2000 1xEV-DO, WCDMA, TD-SCDMA, LTE and mobile WiMAX.
