Ruling the World? Constitutionalism, International Law, and Global Governance
EDITORS: Jeffrey L. Dunoff & Joel P. Trachtman
This book provides an interdisciplinary analysis of the major developments and central questions in debates over international constitutionalism at the UN, EU, WTO, and other sites of global governance. The essays in this volume explore controversial empirical and structural questions, doctrinal and normative issues, and questions of institutional design and positive political theory.

Globalization and Development: Rethinking Interventions and Governance
Edited by Arne Bigsten
The key challenge for achieving sustained development relates to quality of domestic governance, which in turn is strongly affected by external interventions. Domestic governance includes politics, policy formulation, institution building and implementation. Both international and domestic agents need to understand how the interplay between external interventions and domestic governance affects social and economic outcomes.

Legal Pluralism and Development: Scholars and Practitioners in Dialogue
EDITORS: Brian Z. Tamanaha, Caroline Sage, Michael Woolcock
Legal development efforts have focused almost exclusively on state systems, many of which have not improved over time. Although academics have discussed legal pluralism for decades, their work has not been consulted in a development context. Similarly, academics have failed to benefit from the insights of development practitioners. With contributions from both groups, this book aims to shed new light on the topic.

Regime Interaction in International Law: Facing Fragmentation
EDITOR: Margaret A. Young
This major extension of existing scholarship on the fragmentation of international law utilises the concept of 'regimes' from international law and international relations literature to define functional areas such as human rights or trade law. Leading international law scholars and practitioners reflect on how, in situations of diversity and concurrent activity, such interaction shapes and controls knowledge and norms in often hegemonic ways.
