<b>Index</b>	<b>423</b>
--------------	------------

## Boxes

4.1	Financing Trade in a Postcrisis World	94
11.1	Desirable Features for Efficient Public Investment Management	200
17.1	Resilience of Remittance Flows Relative to Other Types of Flows during the Current Crisis	301
17.2	Reverse Remittances	307
17.3	Diaspora Bonds as a Source of Financing during Difficult Times	310
17.4	Revised Forecast Methodology Using New Bilateral Migration and Remittance Matrixes	313
23.1	Private Participation in Infrastructure (PPI) Is Bouncing Back	392

## Figures

1.1	World Output Growth	32
1.2	Trends and Cycles: Potential and Cyclical GDP Growth	33
1.3	Frequency Distribution of GDP Growth in Developing Countries and High-Income OECD Countries, 2009	34
1.4	General Government Debt, Real and Projected	36
1.5	United States: Personal Savings Rate and Current Account Balance, 1960–2009	37
1.6	Recoupling and Switchover	39
1.7	Rising South-South Trade: Toward an Export-Led Growth v2.0?	46
2.1	Regional Trends in Vertical Specialization as a Percentage of Exports, 1985–2005	54
2.2	Number of Annual Patents Granted in the United States, 1996–2009	55

2.3	Total Number of Scientific and Technical Journal Articles, 1995–2005	56
3.1	Developing Countries Account for an Increasing Share of World Trade	72
3.2	Southern Countries Still Export Fewer Varieties Than Northern Countries	73
3.3	LMIC GDP Growth Helps Drive LIC Export Growth, 2000–08	73
3.4	Tariffs' Drastic Drop in Developing Countries since 2000	74
3.5	Positive Impact of Undervaluation on Export and GDP Growth for Low-Income Countries, 1950–2004	78
4.1	Relationship between Market Access and Trade Growth from Developing Countries	86
4.2	Relationship between Logistics Performance and Exports	92
4.3	Ten-Year Survival Rate of Export Relationships: Pakistan and Germany	93
5.1	Commodity Price Indexes, January 2000 to July 2009	102
5.2	Commodity Price Indexes, January 2000 to August 2009	102
5.3	Developing Countries: Commodity Exports Share, 2003–07	104
5.4	Real Non-energy Commodity Prices, 1900–2015	105
5.5	A Measure of Dutch Disease: Difference between Actual and Normative Size of the Tradable Sector, 1975–2005	110
5.6	Natural Resource Depletion and Net Savings Rates, 2007	112
5.7	Government Choices in Allocating Resource Revenues	114
9.1	Trust in National Institutions: Regional Averages	167
10.1	Comparison of Advanced and Emerging Economies after the 2008–09 Financial Crises: Fiscal Imbalances and Public Debt	182
10.2	Number of Countries with Fiscal Rules	184
10.3	Sovereign Wealth Funds	186

11.1	Public Social Spending	196
11.2	Public Spending	197
11.3	Government Investment as Net Acquisition of Physical Assets	199
12.1	Many Countries Were Able to Respond to the Global Crisis from a Position of Strength . . . Overall Fiscal Balances and General Government Debt, 2007	209
12.2	But this Fortunate Position Is Rapidly Changing . . . Overall Fiscal Balances and General Government Debt, 2009	210
12.3	The Crisis Has Brought with It Increased External and Public (Including Domestic) Debt Levels in MICs	211
12.4	Significant Divergence of Required Postcrisis Primary Balances from Countries' Past Levels	212
13.1	Correlation between Sovereign and Subsovereign Ratings of European Countries	223
15.1	Poverty Rates in the Developing World: People Living on Less than US\$1.25 a Day	254
15.2	Regional Poverty	254
15.3	Annualized Poverty Headcount Change (US\$2.50 a day), Early 2000s to Late 2000s	255
15.4	Indicators of Global Hunger	257
15.5	Inequality in Brazil and China	259
15.6	Differential Probability of Completing Sixth Grade on Time, Circa 2005	263
15.7	Human Opportunity Index for Access to Sanitation	264
15.8	Social Spending and Taxes by Quintile as a Percentage of GDP Per Capita	266
16.1	Women's Earnings, Children's Well-being, and Aggregate Poverty Reduction and Economic Growth—the Gender Pathways	276
16.2	Impact of the Crises: Countries' Progress toward the Millennium Development Goals	278
16.3	Gender Gaps in Development Outcomes Vary by Countries' Demographic Stage	283

16.4	Primary, Secondary, and Tertiary School Enrollment and Completion Rates for Girls and Boys, 2003–08	286
16.5	Ratios of Employment to Population Are Much Lower for Young Women than for Young Men Ages 15–24	289
16.6	Labor Force Participation Rate by Region and Demographic Stage, 2003–08	290
17.1	U.S.-Mexico Border Controls and Duration of Stay of Mexican Migrants in the United States	302
17.2	Sharp Decline of Remittance Outflows from Russia during the Crisis, but Beginning of Increase with Recovery in Oil Prices and Growth	306
17.3	Offset of Trade Deficits by Remittances in Many Middle- and Low-Income Countries	308
17.4	Contribution of Remittances to Sovereign Creditworthiness and External Debt	309
17.5	Correlation between U.S. Construction Sector Activity and Remittances to Mexico	315
17.6	Reflection of Fall in Demand for (and Supply of) High-Skilled Foreign Workers in Fewer Applications for U.S. Temporary Worker Visas	315
17.7	International Remittances Agenda	318
19.1	Slowdown of China’s Credit Growth	335
19.2	East Asia and Pacific’s Fiscal Stimulus Compared with That of Advanced Countries	335
19.3	More Diversity in East Asia than in Other Developing Regions	337
19.4	China’s Capital-Intensive Industry-Led Pattern of Production in an International Perspective	338
19.5	Recent Increase in the Volatility of Commodity Prices	341
19.6	The Quick Rise of Intra-regional Trade in East Asia and the Pacific, Surpassing That of NAFTA	344
19.7	Higher Income Disparity in East Asia and the Pacific than in Europe	345

20.1	“The Great Recession, 2009”—GDP Growth by Region	354
20.2	The Effect of the Crisis on Poverty	356
20.3	Demographic Projections for Europe and Central Asia Countries	358
21.1	Symptoms of Innovation, or Lack of It	366
21.2	Gini Coefficients Before and After Public Transfers, Circa 2006	370
21.3	Human Opportunity Index, 2010	371
22.1	Real GDP Growth Rates, Middle East and North Africa	378
22.2	Reform Episodes and Private Investment Response, Middle East and North Africa	382
22.3	The Gender Gap in Middle East and North Africa	384
23.1	Government Fiscal Balance	389
23.2	Public Debt Dynamic	390
23.3	Ratio of Tax Revenues to GDP and GDP (PPP Per Capita) from 1975 to 2000	391
23.4	Tax Revenue	391
23.5	Share of India’s Bilateral Trade with China and the United States	395
23.6	Structural Change of South Asia’s GDP Compared to East Asia’s GDP	396
23.7	Comparative Advantage Driven by Land and Human Capital Endowments	397
23.8	Conflict and Development, 1998–2004	399
23.9	Conflict Reduces GDP Growth	401
23.10	The Changing Population Pyramid in South Asia	402
23.11	Much Lower Urbanization Rates in South Asia, 2005	404

## Tables

15.1	GDP Growth, Employment Growth, and Poverty Reduction	268
16.1	Priorities for Crisis-Response Activities	279
16.2	Developing Countries by Demographic Setting, 2010 and 2015	281
