We Support Putting a Price on Carbon

Seventy-four countries, 23 subnational jurisdictions, and more than 1,000 companies and investors expressed support for a price on carbon ahead of the UN Secretary-General’s Climate Summit.

In the private sector, over 1,000 businesses and investors aligned with the Put a Price on Carbon Statement, the Carbon Price Communiqué, the Caring for Climate Initiative, or the 2014 Global Investor Statement on Climate Change. That includes 347 institutional investors who signed the investor statement, which includes a call for governments to “Provide stable, reliable and economically meaningful carbon pricing that helps redirect investment commensurate with the scale of the climate change challenge,” and 37 non-governmental organizations aligned with the Put a Price on Carbon Statement. Supporters include the European Union and ICLEI, a network of over 1,000 cities.

Businesses

Separately, nearly 400 businesses have joined Caring for Climate, through the UN Global Compact.

Since 2007, Caring for Climate companies have called for a stable price on carbon through the initiative’s leadership statement. To date nearly 400 companies from 60 countries have called for "the urgent creation, in close consultation with the business community and civil society, of comprehensive, long-term and effective legislative and fiscal frameworks designed to make markets work for the climate, in particular policies and mechanisms intended to create a stable price for carbon." Additionally, more than 30 carbon pricing champion companies have signed on to the Caring for Climate Business Leadership Criteria on Carbon Pricing.
The following investors signed the 2014 Global Investor Statement on Climate Change, organized by AIGCC, INCR, IGCC, IIGCC, PRI, and UNEP FI.
