.. Not available. GNI is gross national income (gross national product, or GNP, in previous editions). PPP is purchasing power parity.
 Note: Rankings include all 208 World Bank Atlas economies, but only those with confirmed Atlas GNI per capita estimates or those that rank among the top twenty are shown in rank order. Figures in italics are for 2000. a. 2001 data not available; ranking is approximate. b. Data include the French overseas departments of French Guiana, Guadeloupe, Martinique, and Réunion. c. Estimate is based on regression; other PPP figures are extrapolated from the latest International Comparison Programme benchmark estimates. d. Data refer to mainland Tanzania only. e. Estimated to be low income (\$745 or less). f. Estimated to be upper middle income (\$2,976 to \$9,205). g. Estimated to be high income (\$9,206 or more). h. Estimated to be lower middle income (\$746 to \$2,975).
