1/ This list is updated annually and subject to change should other IDA-only countries qualify for IDA grants and/or MDRI. It includes all IDA-only countries which are currently eligible for IDA grants on debt-sustainability grounds, as well as post-MDRI green light countries. It excludes "gap" or "blend" countries which receive hardened or blend terms from IDA and are not eligible for IDA grants. Should a country's IDA-only status change mid-year, the list would be updated at that time to reflect the change.

2/ In addition to these 50 countries, Timor-Leste is also subject to the policy given its eligibility for exceptional grants.

3/ Inactive countries, which would be subject to the NCBP upon becoming active.
