

2012 Global Go To Think Tank Index Report

Global Index of the leading think tanks in the world

The Global Go To Think Tank Index is produced on an annual basis by the Think Tanks and Civil Societies Program at the University of Pennsylvania with the help of more than 1,500 peer institutions and experts from the print and electronic media, academia, public and private donor institutions and policymakers. Rankings criteria included an institute's ability to retain top scholars, the quality of research, access to policymakers and ability to influence policy decisions. Over 6500 think tanks in 182 countries were invited to participate in the survey; 57,000 nominations were submitted this year across 38 categories that include major areas of policy research and the top think tanks in every region of the world.
