

ISRAEL 2028: Vision and Strategy for Economy & Society in a Global World

Israel's development process is proof that innovation and cooperation creates economic growth despite unfavorable regional conditions. Today, Israel is at a crossroads. While its economy is globally integrated, social and economic indicators point to challenges for Israel's seemingly bright future. Israel 2028 is a road map to guide Israel's government, industry, and academia to work together and position Israel among the world's leading economies.
