

ONE WATER

One Water is a collaborative project at the University of Miami aimed at engaging the media to bring public awareness to the global water crisis.

INTRODUCTION BY

Sam Grogg

Dean, School of Communication
University of Miami

Sanjeev Chatterjee

Film Director, One Water
University of Miami

one water
the movie

Water is essential for life—our bodies as well as our souls require: the stuff of life and death, sweat and tears, need and wonder. One Water churns together stirring visual sequences, compelling expert commentary, hypnotic local music and a score performed by the world-renowned Russian National Orchestra to immerse audiences in a direct and exhilarating experience of the meaning of water to humanity.

TUESDAY
