

## WELCOME TO THE URBAN REVOLUTION

*How Cities Are Changing the World*

By Jeb Brugmann

In *Welcome to the Urban Revolution*, internationally recognized urbanist Jeb Brugmann draws on two decades of fieldwork and research to show how the city is now a medium for revolutionary change. Not just political upheaval but technological, economic, and social innovations are forged in our cities. We may think of cities as hotbeds of crime or engines of globalization, but Brugmann shows how cities are becoming laboratories for solving major challenges of the twenty-first century: poverty, inequality, and environmental sustainability.
