

CLIMATOPOLIS

How Our Cities Will Thrive in the Hotter Future

By Matthew E. Kahn

We have released the genie from the bottle: climate change is coming, and there's no stopping it. The question, according to Matthew Kahn, is not how we're going to avoid a hotter future but how we're going to adapt to it. He presents a positive yet realistic picture of what our urban future will look like.

MATTHEW E. KAHN

CLIMATOPOLIS

HOW OUR CITIES WILL THRIVE *in the* HOTTER FUTURE
