

Version 5.17.0 released on Feb 1, 2017 contains improvements in the look and feel of our software. In particular, we changed design of the following pages of HQ/Supervisor application:

- Survey Setup
- Headquarters
- Interviews
- Observers
- API-users

The update improves the appearance and user experience for the users of different screens, from older low resolution devices, to modern high pixel density screens.

The screenshot displays the 'Interviewers' management page in the Survey Solutions application. The interface includes a top navigation bar with 'Teams and Roles' selected, and a sidebar on the left with filter options. The main content area features a table of interviewers and a 'CREATE' button.

LOGIN NAME	ACCOUNT CREATION DATE	INTERVIEWER'S EMAIL	SUPERVISOR	CONNECTED TO THE SERVER
Shah	Dec 19, 2016 20:03		Oniki	Yes
WP_Intv01	Dec 20, 2016 02:28		WP_Supervisor	Yes
WP_Intv02	Dec 20, 2016 02:29		WP_Supervisor	No
WP_Intv03	Dec 20, 2016 02:30		WP_Supervisor	No
WP_Intv04	Dec 20, 2016 02:30		WP_Supervisor	No
saykhamINT1	Dec 20, 2016 03:35		soda_SUP	Yes
sodaINT2	Dec 20, 2016 03:38		soda_SUP	Yes
peter	Dec 20, 2016 10:02		Willy	No
adeline	Dec 20, 2016 10:03		Willy	No

The overall design is responsive to the environment of the browser, and some elements may be collapsed or presented differently depending on the screen size and device resolution, providing access to the same functionality.

The screenshot shows the 'Survey Setup' interface. At the top, there is a navigation bar with a logo on the left, the title 'Survey Setup' in the center, and a hamburger menu icon on the right. Below the navigation bar, the page title 'Survey Setup' is displayed on the left, and a green 'IMPORT TEMPLATE' button is on the right. Below the button, there are two numbered instructions: '1. Click Import Template button to load a questionnaire from Designer' and '2. Click on a questionnaire from the list to create interview assignments.' To the right of the instructions is a search icon. Below the instructions is a table with the following columns: QUESTIONNAIRE, VERSION, IMPORT DATE, CREATION DATE, and LAST ENTRY DATE. The table contains six rows of data.

QUESTIONNAIRE	VERSION	IMPORT DATE	CREATION DATE	LAST ENTRY DATE
CENSO DE POBLACION	3	Feb 1, 2017 17:25	Dec 14, 2016 20:40	Dec 14, 2016 20:40
CENSO DE POBLACION	2	Feb 1, 2017 15:25	Dec 14, 2016 20:40	Dec 14, 2016 20:40
LaosCPL_PILOT	7	Feb 1, 2017 07:08	Oct 5, 2016 2 3:28	Oct 3, 2016 0 7:52
Zinwa Test	2	Feb 1, 2017 04:54	Jan 30, 2017 18:30	Jan 30, 2017 18:30
Zinwa Test	1	Feb 1, 2017 04:53	Jan 30, 2017 18:30	Jan 30, 2017 18:30
Water User Survey	2	Feb 1, 2017 04:48	Dec 15, 2016 15:44	Dec 15, 2016 15:44

We are constantly listening to the feedback and suggestions from our users. Many suggestions were voiced during our virtual user group meetings and some have been implemented already. If you are thinking about new functionality for Survey Solutions please use the following feature request [form](#).
