1/ Common reduction factor applied to exposure at the completion point is 30.8% to derive total debt relief.

However, the breakdown among participating institutions is consistent with the original (end-1996) disaggregation.

The new common reduction factor replaces the estimate of 17.1% published in the Decision Point Document in 1997.

2/ A satisfactory reply refers to MDBs agreeing to both the original debt relief amount as well as the topping-up.

In those cases where the MDB confirmed the original amount it is stated that the reply is for that amount only.

3/ The end-1999 debt stocks were revised at the second completion point, but will affect only the enhanced HIPC assistance. Assistance under the original framework remains unchanged.

IDA	109	45.6	45.6	93.0	Yes	IDA assistance will be provided over a period of 25 years. After the approval of the decision point, IDA started providing debt relief through a 100% reduction in debt service falling due on IDA credits outstanding as of end-1999 (90% from IDA and 10% from donor resources in the HIPC Trust Fund) until October 15, 2003, the date of the expected completion point. IDA provided 90% debt service reduction thereafter. When Guinea-Bissau reaches the completion point, this debt service relief will become irrevocable and continue until Nov. 2025. Total nominal HIPC relief from IDA would amount to US\$179.6 million.	DP approval by Board on December 14, 2000.
IMF	14	5.9	51.5	11.9	Yes	Assistance to be delivered through partial payment of debt service falling due to IMF by the PRGF-HIPC Trust. Interim relief started as of December 2000. Share of debt service due on current IMF obligations covered by total IMF assistance averages 75% over 2001-2010.	Approval by Board on December 15, 2000.
AFDB/AFDF	71	29.7	81.2	50.8*	Yes	AfDB group is providing relief in the form of a 90% reduction in debt service, from the decision point until 2021. At the completion point, AfDB will enter into an irrevocable debt relief commitment.	Approved by AfDB Board on December 20, 2000.
BADEA	8	3.3	84.5	6.8	Pending	Concessional clearance of arrears; concessional rescheduling of debt and reduction of interest rates.	BADEA has expressed grave concerns over the Guinea Bissau authorities' failure to honor prior arrears settlement arrangements. At BADEA's request, staff of the World Bank HIPC Unit and IMF intervened, and the Guinea Bissau authorities have made new proposals to resolve the issue. BADEA has accepted these proposals, in principle, pending the receipt of final confirmation, endorsement and implementation by the Guinea Bissau authorities, and subsequent approval by the BADEA Board of Directors.
IFAD	6	2.5	87.0	5.1	Yes	Up to 100% debt service relief during the interim period and until NPV target is achieved.	IFAD Executive Board approval in April 2001. Guinea-Bissau arrears are fully internalized into the debt relief as of the date of the Executive Board.

Among the options explored were various rescheduling scenarios with extended maturity periods lowered interest rates, and debt-stock reduction.	The Working Group agreed to participate in the Enhanced HIPC Initiative in November 2000. The modalities of participation were left to the Agent, the Central Bank of Trinidad & Tobago. The modality was presented by the Agent and approved by the Board of Governors in May 2001. It provides for a lowering of the rate of interest by 50%, a reduction of the debt stock and support in the amount of US\$3 million which will be met from the HIPC Trust Fund. It is expected that the Agent would expedite the Agreement to effect this modality by the next meeting of the Caricom Governors to be held in November 2001.

IDA/IBRD	349.4	44.0	44.0	52.8	Yes	IDA assistance will be provided through concessional rescheduling of arrears and debt service reduction over a period of 4 years. Before the decision point, IDA cleared arrears owed by Haiti with a concessional rescheduling, which reduced the debt outstanding by US\$33.1 million in NPV terms at decision point. After the approval of the decision point, IDA started providing debt relief through a 50% reduction in debt service falling due on IDA credits outstanding as of end-Sept. 2005. When Haiti reaches the completion point, this debt service relief will become irrevocable and continue until May 2010. Total nominal HIPC relief from IDA would amount to US\$21.5 million.	IDA Board approved the decision point in November 2006.
IaDB	399.6	50.4	94.4	60.4	Yes	The IDB assistance will amount to US\$60.4 million in NPV terms, including US\$9.7 million already provided through the concessional rescheduling of arrears. <sup>38</sup> The remaining US\$50.7 million (in NPV terms) in assistance is expected to be delivered through a reduction in debt service.	IaDB Board approved providing E-HIPC debt relief to Haiti in March 2007.
IMF	20.6	2.6	97.0	3.1	Yes	IMF assistance is estimated at US\$3.1 million in NPV terms. Immediately following the approval of the decision point by the Boards of IDA and the IMF, the IMF will extend interim assistance—provided that the necessary financing assurances are in place—in the form of debt-service reduction. Following the approval of the prospective PRGF arrangement, Haiti is expected to repurchase the amounts outstanding under the EPCA with more concessional PRGF resources. This would result in relatively low levels of debt service falling due during the interim period. As a consequence, most of the IMF's HIPC Initiative assistance is expected to be disbursed after the completion point.	IMF Board approved the decision point in November 2006.
IFAD	20.3	2.6	99.6	3.1	Yes	Discussion ongoing as to precise modalities.	Board approved enhanced HIPC relief in December 2000.
OFID	3.4	0.4	100.0	0.5	Yes	Governing Board approved in June 2007 Debt Relief to Haiti to be delivered through restructuring of existing loans.

IDA/IBRD	548	28.7	28.7	97.8	Yes	IDA assistance will be provided over a period of 12 years through a combination of IDA grants on IBRD loans, concessional rescheduling and debt service reduction on IDA credits. After the approval of the decision point, IDA provided debt relief from July 2000 to July 2002 through a 50% reduction in debt service falling due on IBRD debt outstanding as of end-1999. In July 2002, interim relief reached the ceiling of one-third of total NPV of HIPC relief from the World Bank Group. After the completion point, irrevocable debt relief is provided i) with an IDA credit amounting to US\$67.5 million to prepay outstanding IBRD debt disbursed before end-1999; and ii) through a 50% reduction on debt service on IDA credits outstanding as of end-1999 for 6 years until July 2011. Total nominal HIPC relief from IDA would amount to US\$104.2 million.	Board DP decision in July 2000. Board CP approval in April 2005. MDRI relief approved on March 28, 2006.								
IaDB	750	39.3	68.0	134.0	Yes	Interim assistance has been provided through the reduction of the debt service payments to the IDB over the period of January 2001–December 2003, on disbursed and outstanding debt as of end-December 1999. After completion point, assistance will be delivered in the same manner. Total NPV assistance will amount to US\$133 million.	Board approval of completion point in May 2005. IaDB-07 Debt Relief Initiative approved in March 2007.								
CABEI	409	21.4	89.4	73.0	Yes	In April 2000, CABEI and the Honduran authorities concluded a debt relief agreement which provided for the required reduction in NPV terms as specified in the decision point document. This agreement restructured 60 percent of CABEI's loans which are guaranteed by zero-coupon bonds from the U.S. Treasury.	CABEI signed a debt relief agreement with Honduran authorities on April 27, 2000 which covers full financing of CABEI's NPV share of US\$73 million. The remaining assistance will be provided at the completion point.	Delivered Board approval October 2004.
BOAD/WAEMU	12.5	2.2	99.0	6.7	2.4	Yes	Estimated US\$4.2 million of assistance in NPV terms was provided by WAEMU through a concessional rescheduling of Niger's arrears with BOAD as of end-December 1999.	In March/October 1999, WAEMU reached an agreement with Niger to clear the country's arrears with BOAD -- which amounted to US\$12.5 million. WAEMU paid BOAD and signed a concessional rescheduling agreement with Niger (38% grant element). Consistent with the provisions of the enhanced HIPC framework, the concessionality (equivalent to US\$4.7 million) is credited to BOAD as part of its contribution to Niger's HIPC relief. The difference between the estimated HIPC assistance, US\$6.7 million and the concessionality is US\$2 million. This amount is due to Niger.
