

Summary of Debt Service and Poverty Reducing Expenditures 1999-2013 1/
(In millions of U.S. dollars, unless otherwise indicated)

	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	
									Prel.	Projections				
Debt Service														
Paid/Due after Enhanced HIPC and MDRI 2/	3,200	3,279	3,677	4,052	3,968	3,843	2,880	3,141	2,878	2,528	2,817	3,699	3,975	
Debt Service Savings from MDRI 3/	1,207	1,511	1,581	1,418	1,394	
Poverty Reducing Expenditures 4/	6,494	7,590	8,811	10,818	15,248	18,227	21,824	26,697	28,836	30,187	32,510	34,134	36,285	
Average Ratios (in percent)														
Debt Service/Exports	12.7	11.4	10.2	11.0	9.3	7.8	4.7	4.1	3.9	3.6	3.6	4.1	4.2	
Debt Service/GDP	3.2	2.7	2.5	2.6	2.3	2.0	1.3	1.1	1.0	0.9	0.9	1.0	1.1	
Poverty-Reducing Expenditure/Government Revenue 4/	42.1	43.2	42.7	40.6	49.3	48.1	45.4	48.6	55.0	55.2	56.0	55.4	58.5	
Poverty-Reducing Expenditure/GDP 4/	6.3	6.6	6.9	7.1	8.0	8.3	8.0	8.2	8.9	9.3	9.8	9.9	10.4	

Sources: HIPC country documents, and World Bank and IMF staff estimates.

1/ Data refer to 35 post-decision-point HIPCs, unless specified otherwise.

2/ Debt service paid covers 2001-2008, and debt service due covers 2009-2013. For post-completion point HIPCs, debt service due assumes full HIPC Initiative debt relief, additional debt relief, provided by some Paris Club Creditors on a voluntary basis, and MDRI. For pre-completion-point countries, debt service due includes interim debt relief and full HIPC Initiative and MDRI assistance expected at the projected completion point. See Appendix Table 2 for a detailed breakdown.

3/ Excludes Ethiopia, Malawi, and Zambia for which data is not available.

4/ As defined in PRSPs; excludes Liberia and Malawi for which data is not available. In some countries, the definition of poverty-reducing expenditures has evolved over time to include more sectors.
