The Confederation of Danish Industries invites you to a conference where energy projects on four large Asian markets will be on the agenda. The conference is linked to the European FP6 project ‘Technology at Work’ that explores these business opportunities in Asia with focus on India, China, Malaysia and Thailand.

There are vast business opportunities in sustainable energy projects in Asia due to the fact that the Asian economies are growing very fast. The increasing need for energy and the difficulties in reaching the climate goals creates opportunities for European companies with competencies within these sectors.

At the conference you will have the opportunity to meet some of the leading experts in sustainable energy technologies with knowledge about concrete projects, business possibilities and financing.

At the Conference; Business Opportunities for Sustainable Energy Technologies in Asia, business opportunities in India, China, Malaysia and Thailand will be addressed by experts, analysts and experienced advisers operating in these countries.

At the end of the conference you will have a chance to meet the experts and to discuss opportunities for collaboration.

The conference is free of charge and will take place:

**March 10, 2008 at 9 am – 4 pm.**
At The Confederation of Danish Industries, H.C. Andersens Boulevard 18, Copenhagen.

Contact: Karl Kristian Malling Granov, e-mail: kkg@di.dk, telephone: 3377 3792.
Program

At 9.00 am  Registration & coffee
At 9.30 am  Welcome
Anders Stouge, Director of Danish Energy Industries, Confederation of Danish Industries, Denmark
At 9.40 am  The T@W project
Introducing the T@W project and its efforts in paving the way for EU actors in the CDM markets in China, India, Malaysia and Thailand
Nils Daugaard, ECNet, Denmark

Asian CDM / Sustainable Energy Markets

At 9.45 am  EU competence and interest in Asian CDM and Sustainable Energy Market
Prospects for bringing in play EU know-how and competencies in the field of co-generation at the Asian markets
Thomas Bouquet, COGEN Europe (speaker to be confirmed)
At 10.00 am  The CDM / Sustainable Energy Market in China
Update on CDM market development and opportunities for European companies
Luo Zhigang and Prof. Zhao Daqing, Guangzhou Institute of Energy Conversion/GIEC, Chinese Academy of Science
At 10.15 am  The CDM / Sustainable Energy Market in India
Update on CDM market development and opportunities for European companies
Vivek Kumar, TERI, India
At 10.30 am  The CDM / Sustainable Energy Market in Malaysia
Update on CDM market development and opportunities for European companies
Wan Nadia Kamarudin PTM, Malaysia
At 10.45 am  The CDM /Sustainable Energy Market in Thailand
Update on CDM market development and opportunities for European companies
Thierry Lefevre, CEERD, GIEC (TBC)
At 11.00 am  COFFEE BREAK

Financing Carbon Projects / Sustainable Energy Technology Transfer

At 11.15 am  Aspects of CDM for the European Commission in relation to technology transfer
José García Fluxa, Directorate-General for Energy and Transport, European Commission
At 11.45 am  Carbon Markets and Financing
Hiroshi Tomita, Fortis Bank
At 12.15 pm  Carbon Finance: EIB and Kyoto Mechanisms
Kristin Lang, European Investment Bank (EIB)
At 12.45 pm  The Carbon Finance Services offered by the World Bank Group
Pranab Ghosh, Carbon Finance Unit, IFC, World Bank
At 1.15 pm  LUNCH & networking

At 2.00 pm  Summary and Opening for match-making possibilities
Mats Rydhehell, KanEnergi Sweden AB

At 2.20 pm  Questions and Answer session.

At 2.40 pm  Discussion of CDM market development and opportunities - Organised in four groups with panel of participants from Asia

At 3.45 pm  End of session
Speakers

Anders Stouge, Director of Danish Energy Industries, Confederation of Danish Industries, Denmark
Mr. Stouge is responsible for policies focusing on transitioning new energy technologies and knowledge from public to private sector financing. Mr Stouge facilitates the development of clusters between companies, scientists, public authorities and venture capital companies. He is active within Market development activities related to energy-technologies, R&D-policies related to energy, Policy-recommendations on how to enhance the possibilities of market based energy-savings. He is responsible of Government relations (Denmark, European Union, and other countries etc.).

Nils Daugaard, Energy Consulting Network/ECNet, Denmark
Nils Daugaard is partner at Energy Consulting Network and possess long experience with dissemination of sustainable energy technologies at international level. Mr. Daugaard acts as the coordinator of the ‘Technology at Work’ project

Thomas Bouquet, COGEN Europe
Mr. Thomas Bouquet is project manager at the European branch association for co-generation, COGEN Europe. He will present the development of the carbon market from the association’s viewpoint and the implications for market actors in the field.

Luo Zhigang & Prof. Zhao Daiqing, Guangzhou Institute of Energy Conversion (GIEC), Chinese Academy of Science, China
Luo Zhigang & Prof. Zhao Daqing will present the development of the CDM market in China, especially in the Guangdong Province (south China), and the opportunities this brings for European businesses. The efforts in Guangdong are anchored in newly established CDM Centre hosted by GIEC, and the CDM development in China is driven by strong Government support. Promising potential can be found within various forms for biomass, co-generation, waste to energy, hydro power and wind energy as proved at workshop held in Guangzhou, 17-18 April 2008.

Vivek Kumar, the Energy and Resource Institute (TERI), India
Vivek Kumar represent TERI, a major player with regard to CDM and sustainable energy development in India. Mr. Kumar will report on current market development, including opportunities for European businesses identified in relation to workshop in New Delhi, 21-22 February 2008. The scope of activities includes initiation of large-scale biomass gasification, large wind turbine and municipal solid waste management technologies.

Wan Nadia Kamarudin, PTM, Malaysia
The presentation will focus on the promising potentials for undertaking CDM projects in Malaysia, including palm oil, wood waste and municipal solid waste. PTM is appointed as the CDM Energy Secretariat, and this way is a central actor in the field of CDM.

Thierry Lefevre, Centre for Energy Environment Resource Development (CEERD), Thailand
The potential for technology transfer to Thailand refers to CHP, biogas, biomass gasifier, landfill and MSW handling and boiler technology. Thierry Lefevre's presentation will draw up the highlights of this, including outcome of workshop in Bangkok, 25-26 February 2008.

The Carbon Finance Unit serves as IFC’s in-house resource for all carbon finance-related issues, providing services directly to buyers and sellers. The Unit leads in the development of new products, and serves as an advisor on a variety of products and services to support private sector participation in the evolving carbon market. Products offered by the IFC to companies include emission reduction purchase facilities as well as finance products and services such as the Carbon Delivery Guarantee, debt
and equity, monetization of future cashflows from sales of carbon credits etc.

**Hiroshi Tomita, Deputy Director, Fortis Bank and Itaru Shiraishi, Carbon Trader, Fortis Bank**
Fortis was one of the pioneers in carbon financing, and is today one of the leading financial institutions in carbon banking, offering a broad range of financial services related to CO$_2$ trading.

**Kristin Lang, European Investment Bank (EIB)**

**José Garcia Fluxa, Directorate-General for Energy and Transport, European Commission**
José Garcia Fluxa is Project Officer of the ‘Technology at Work’ action. He will present the Commission’s policy in the field of sustainable energy & climate protection, including the recent developments.

**Mats Rydehell, KanEnergi Sweden AB**
Mats Rydehell is Managing Director of KanEnergi Sweden AB and engaged in international projects, including assignments for large scale industry. He also works on partner matching within the ‘Technology at Work’ project and as such will make the introduction to this part of the programme.
Yes, I would like to participate in the Conference "Business opportunities for Sustainable Energy Technologies in Asia"

The Confederation of Danish Industries, Copenhagen • March 10th, 2008 • from 9.00 am to 4 pm
