

## **Adelina (Lennie) C. Santos- Borja**

Adelina (Lennie) C. Santos-Borja is the Chief of the Research and Development Division and the Head of the Carbon Finance Unit of the Laguna Lake Development Authority in the Philippines. She has more than 30 years of experience in water quality management, integrated Lake Basin management and environmental impact assessment. She entered the field of Carbon Finance in 2004 as the Team Leader of the World Bank-Japan Climate Change Initiative funded project on the development and implementation of carbon emissions mitigation intervention through the Clean

Development Mechanism in the Laguna de Bay watershed. Ms. Santos-Borja is a member of the Scientific Committee of the International Lake Environment Committee Foundation and the International Water Resources Association. She is actively informed in the promotion of the Integrated Lake Basin Management Approach both internationally and locally. She also has formal training and experience in Limnology and holds a Master's Degree in Biology and a Master's Degree in Environmental Science. She was hired by the World Bank to provide technical assistance and secretariat support to the IAG in 2004.
