I want to tell you a little about the subject of our interview. The conversation will concern questions about household finances, raising children, about your housing conditions, financial expenditures and income.

The information gathered in this research will be used only in general form to get a picture of how people live in Kyrgyzstan.

We understand that you will spend part of your free time on this interview. Also, answering our questions is of course work. Therefore we will pay you what we can.
SECTION ON "FAMILY INFORMATION"

1. Let's talk about your family. By "family" or "household" I mean all persons who live together with you and share common income and expenditures. If in your family there are unmarried children under 18 who study in a different population point and do not live with you, do include them in the household.

Please tell me, how many people are there in your family, household?
