AFYA NA MAENDELEO
KAGERA HEALTH AND DEVELOPMENT SURVEY

SIBLING QUESTIONNAIRE
2010
PC: SIBLING ROSTER - INSTRUCTIONS

This section is enabled if the following conditions are met:
1) The KHDS 1991 household head was living with at least one of his/her biological children during KHDS 1991-
2) At least one such child was under 32 years of age in 2010 and currently alive. (These children are marked
with *)

Instructions:

We will not ask questions on the full roster of children, but only a sub-sibroster. In order to make the sub-sib-roster you will need to identify the children on
the full roster who belong to the ‘preferred couple’. The preferred couple is the head and his/her partner with most *-children. In case the head has two
partners with an equal amount of *-children, then the one with the youngest *-child is chosen. To do this you will need to confirm/ask names of both father
and mother for each *-child. The program will assist in identifying the most frequent couple (pair of parent) of the star (*) children. Double clicking will copy
the couple into the respective field. If the couple suggested by the program is not the most frequent one you should type in the one that is.

The information pre-filled is confirmed and can be edited. In case edits happen to alter the criteria mentioned above leading to having not at least one star
(*) child that qualifies, then the sib-roster is not administered. Criteria that can lead into this change are age and whether the child is confirmed not to be a
child of KHDS 1 household head. In case of this an elaborate comment has to be included.

Once the couple is identified:

1) Identify who from the sibling roster is a child of the couple by ticking the ‘select’ check button (SR_Tagged) for all children belonging to this couple.

2) Ask your respondent who else, not on the list, is a child of this couple (include children who are not alive but lived for at least 6 months: these names get
added to the list indicated as number ‘3’.

3) Ask where each of the selected children live. Deceased children will not be asked of their current age. At this stage the sib-roster questions for each child
are asked through PC. Questions asked are very similar to what is asked in other parts of the questionnaire especially under Wedding Qx. For PHHMs
there are questions that you might have asked for the person before, in case of this it is important that you crosscheck with what was recorded earlier to
avoid inconsistencies.
PC: SIBLING ROSTER

dynasty.dta

PCQ0a Did your supervisor assign you to do this section? [1]=Yes, [2]=No, section to be done later

dynasty.dta

PCQ0b Name of respondent on sib-roster [type in name if not listed]

dynasty.dta

PCQ0c Name of parent couple in sib roster (preferred couple)

[Roster pre-populated with all known biological children of PHHhead (from parental and CLE sections of KHDS-1)]

Ask about any other children from this couple who survived till at least 6 months, add them to the roster and tick the select box (SR_Tagged)
