Approval Date: June 2006
Closing Date: June 2012
Net commitment: US\$100 million

AREAS OF COVERAGE

Nationwide

Support for Strategic Local Development and Investment Project (SSLDIP)

The project aims to improve local service provision by facilitating Local Government Unit (LGU) access to viable financing that will help them implement strategic infrastructure investments. Using an open menu approach, the project finances individual or a program of infrastructure investments. It also supports LGU investments in improving financial management and revenue generating capacity.

The project provides assistance to participating LGUs in preparation, procurement supervision and management, including monitoring of outcomes during construction and improved management and operation of municipal enterprises and services.
