The fourth phase of government under president Kikwete,
We must cooperate with them, we citizens of Tanzania (Citizens)
We need liberation (from poverty) under strong political parties that respect the
constitution and have sound ethics.

President Kikwete our father,
You must manage the government and lead it (lead it)
So that our nation can move forward (can move forward)
We still have a long way to go, lead us (lead us),
Tanzanians depend on you (depend on you)
Work with Lowasa (the Prime Minister) and the Ministers (and the Ministers)
Best wishes in your work (we commend you)
Your parliament, from the Islands to the Mainland (lead us)
Congratulations Samuel Sitta our father (and members of parliament),
Our nation needs hard workers,
Hard workers who are just and trustworthy,
We must respect and guard the ethics of our work
Tanzanians, the work has begun (work has begun)
Work work (Kikwete our father)
Take up, take up the iron broom,
And Lowasa take up the iron broom,
Ministers take up the iron broom,
And members of parliament take up the iron broom
All women take up the iron broom,
All citizens must take up the iron broom,
Also children must take up the iron broom,
Together we take up the iron broom.
We must sweep our offices – so they become clean
Our service in our offices must be clean – and fair
We must clean the parastatal organizations so they too become clean,
Sabotage, theft, unethical businesses and bribery – we must bury them
The system of the Courts, Police Force and Prisons – we must clean them,
Business licenses and income sources (of Government and people) – must be
respected,
Registration of all political parties must be free and transparent,
Hospital and educational services must be improved
The iron broom has to clean everywhere – so that it (the Country) becomes clean.

2. The responsibility of developing and directing (Tanzania), it is the responsibility of every Tanzanian.

(Citizens) we must work hard, so that we can alleviate our nation from poverty.

Our President Kikwete, our father has proclaimed a strong and everlasting war (everlasting)

Tanzanians we must be responsible (Tanzania).

Squandering, fraudulent behaviour and corruption will not end (will not end)

If we merely curse it only (only)

Under your leadership the economy has changed (has changed)

Tanzania and the whole Africa (know you)

There's cooperation between Tanzania and other nations (congratulations father).

Congratulations Ally Shein you are the Vice President (the citizen)

(Our nation needs hard workers)

Hard workers that are just and trustworthy; we must respect the principles and laws underpinning our work.
