

Macro/ National Level Check List

- Does the Constitution include gender equity provisions?
- Does the PRSP address gender issues, gender dimensions of transport and actions required?
- Does the national budget include resources for addressing gender issues in all key sectors including transport (collection and analysis of gender disaggregated data, capacity building)?
- Does the regulatory environment support women's participation in transport initiatives?
- Do they have rights to access/control of land
- Is there a labor code
- Do women have the right to establish bank account
- Is there a government advocate for inclusion of gender in transport and other sector programs (e.g., Ministry of Women's Affairs)?
- Are national data sources (e.g., census, surveys, etc.) disaggregated by gender, age, ethnic or other social categories?
- Is there a system for monitoring the implementation of gender components of policies and regulations?

If any of these elements are lacking, awareness raising and advocacy are needed to establish them and ensure they are implemented.
